

# How you can help Israelis today if they need blood tomorrow.

For now, Israel has enough blood for its hospitals. But that could change instantly if Hezbollah's rockets in the north inflict more casualties and prevent Israelis from venturing out to donate blood. But if you donate

blood here, Blood Centers of America can provide blood if the supplies run short at Magen David Adom, Israel's emergency services system.

**Help our community while providing Israel with an insurance policy too.**

# Donate Blood.
